MAPPING EXPERIENCES IN EUROPE RELATED TO THE PROVISION OF HEALTHCARE TO RETURNEES¹

CONTEXT

In the framework of the project “*Health and Return of illegal residents: best practice for basic requirements in the provision of health care to returnees (voluntary and forced), with a particular focus on vulnerable groups (women, children and disabled persons) prior to departure*”, and during the kick off meeting held in Verona, 21-22 January 2008, it was agreed to design an ad hoc questionnaire, for mapping experiences in Europe on the provision of healthcare to returnees.

BACKGROUND INFORMATION

- On 17 April 2007 the European Commission awarded a **Grant Agreement Contract (Ref: Grant Agreement Number – JLS/2006/Return/028)** “Health and return of illegal residents: best practice for basic requirements in the provision of health care to returnees (voluntary and forced), with a particular focus on vulnerable groups (women, children and disabled persons) prior to departure” to Ulss 20 Verona and a group of leading European partners.
- The **specific objective** of the project is to identify Best Practices in the Member States in the provision of health care for returnees, with a particular focus on vulnerable groups (women, children and disabled persons), prior to departure from country of illegal residence.
- One of the activities foreseen by the project is to carry out a **mapping exercise of experiences in Member States and third countries** (e.g. pilot projects) and documents (e.g. protocols) with relation to the provision of healthcare to returnees.

PURPOSE OF THE MAPPING EXERCISE:

1. To collect individual experiences at all levels (local, regional and national) on practices relating to the provision of healthcare to returnees.
2. To consolidate information in an easily consultable inventory to be uploaded on a future website (URL TBD) for consultation.
3. To provide a resource tool for key stakeholders operating in the field of illegal immigration and return.

¹ A returnee is a person who undergoes the process of return, defined as follows: “The process of going back to one’s country of origin, transit or another third country, including preparation and implementation. The return may be voluntary or enforced.” (Ref: Communication from the Commission to the Council and the European Parliament on a Community Return Policy on Illegal Residents) COM(2002) 564 final

INSTRUCTIONS

- The present questionnaire serves to collect information about experiences in Europe related to the provision of healthcare to returnees, in order to come up with a comprehensive mapping.
- The questionnaire is self-administered and Ulss 20 Verona is responsible for the supervision and distribution to appropriate parties/participants.
- The questionnaire should be completed according to the notes provided below and one questionnaire format should be used for each documented individual experience.
- Each questionnaire has a box in the upper right that needs to be filled out by participants with the following information: country where the experience occurred and questionnaire number (e.g. questionnaire 01, 02, etc.). Please see example below:

- Feel free to distribute this questionnaire to other individuals and institutions that you believe would be interested in participating either in this survey or in the network (or both)
- Please note that all participants need to provide their signature and the date signed on the last page of the questionnaire
- Completed questionnaires need to be submitted electronically (Times New Roman 12 preferred font) via email to here@ulss20.verona.it **and** the originals (with signatures) mailed to the following address:

Azienda Ulss 20 Verona
Ufficio Rapporti Internazionali
via Valverde n.42, 37122 Verona
Italia.

QUESTIONS RELATING TO A SPECIFIC ACTION

6	<p>ACTIVITIES RELATED TO HEALTH and RETURN:</p> <ul style="list-style-type: none"> - Is the issue of health and return (forced and voluntary) an issue for your organization/government/institution”? - Is there legislation in your country which lays down the procedures for returning illegal residents to their country of origin and if yes, is there any reference to healthcare in such legislation? - Did you experience problems with health related issues when returning third country nationals? If yes, which are the most striking ones? - Which countries of return are in this respect the most problematic and why? 	<p>1) Health and return is not an issue the ESRI are directly involved in but we have published research on return in the past.</p> <p>2) The <u>Immigration Act 1999</u> sets out the principles, procedures and criteria which govern the detention and removal of non-Irish nationals from the State, and makes provision for the issuing of deportation and exclusion orders. The Act allows the Minister for Justice, Equality and Law Reform to require any non-Irish national to leave the State and remain thereafter out of the State <u>Statutory Instrument No. 55 of 2005</u> (Immigration Act 1999 (Deportation) Regulations 2005) authorise Immigration Officers and members of the Garda Síochána (police) to deport a person from Ireland under the Immigration Act 1999. The form of the deportation order and the prescribed places of detention for the purposes of deportation are set out. <u>Statutory Instrument No. 56 of 2005</u> (Immigration Act 2003 (Removal Places of Detention) Regulations 2005) sets out the prescribed places of detention for the purposes of removal from the State. I am not aware of any provision regarding healthcare and return in legislation in Ireland.</p> <p>3) Not relevant to our organisation.</p> <p>4) I do not have any information in this regard.</p>
